Executive Summary

42 Attacks	23 Logins	698 File Changes	655 Open Alerts
----------------------	---------------------	----------------------------	---------------------------

Your site needs some security attention.

Events This Period

Type	Count	Status
Attack Attempts	42	Review Required
Login Attempts	23	Normal Activity
File Changes	698	Review Required
Open Alerts	655	Action Needed

Security Issues Found

Vulnerable Plugins

Plugin	Version	CVE ID	Severity	Fix Version
Advanced Custom Fields PRO	6.2.1.1	2024-49593	MEDIUM	6.3.9

Update these plugins immediately to protect your site.

Top Attacking IPs

IP Address	Attack Count	Attack Type
34.131.209.193	40	Sensitive File Probe
9.9.9.9	2	SQL Injection

These IP addresses have been repeatedly trying to break into your site.

Recent File Changes

File Path	Change Type	Date
...tent/plugins/sg-ai-studio/sg-ai-studio.php	Modified	May 29 2026, 02:26 PM
...t/plugins/sg-ai-studio/core/Rest/Menus.php	Added	May 29 2026, 02:26 PM

These files were modified on your site. Review if unexpected.

What You Need To Do

These are the security issues that need your attention, sorted by importance.

Issue	Risk Level	What To Do
Vulnerable Plugins Detected	HIGH	Update all flagged plugins to their fixed versions immediately.
Too Many High Severity Alerts	MEDIUM	Review and acknowledge or resolve high severity alerts.
Unexpected File Modifications	MEDIUM	Review all file change alerts and verify they were authorized.
